EDUCATIONAL CONSULTING SERVICES

Throughout the consulting process, the focus is on finding a college placement in which the student will be successful and the family will be confident in their child's success.

Services include:

Interviews with the student and parents to determine needs and goals as well development of a list of appropriate colleges for the student.

Evaluation and Assessment of transcripts, reports and recommendations, current testing, activities and interests.

Providing assistance in student high school course selections to meet college and scholarship admission requirements.

Providing feedback on progress toward target GPA for college admission and scholarship requirements.

Administering career and/or personality assessments as required.

Referrals if necessary for further testing, tutoring or admissions test coaching.

Guidance and instruction in preparing applications, writing admissions essays, searching for scholarships and visiting schools and interviewing.

Consultation with the family about the final choice of college and evaluation of financial aid awards.
